For an enterprise, quality is our life and reputation is our future

ABOUT US:

As the experienced manufacturer of net wrap, pallet net baler twine, silage wrap, NRF and silage/grain bags. Our professional technicians, advantaged equipment, effective management system and high productivity drive us to the excellence and good reputation. Quality feedback from all global customers is positive.

Our custom agricultural plastics are exported to US, Canada, Europe, Japan, Russia, South Africa, Australia and New Zealand countries. Net wrap and silage wrap are fit for all conventional balers and wrappers. Our production is under ISO 9001 quality certificate. One station purchase for farms and ranches harvest is another advantage. Besides, we have the production of sunshade net and security netting.

We use 100% new imported polypropylene & polyethylene resin, pigment, UV absorber/stabilizer and masterbatches for all plastic products. High quality and competitive pricing keep our sustainability.

For an enterprise, quality is our life and reputation is our future

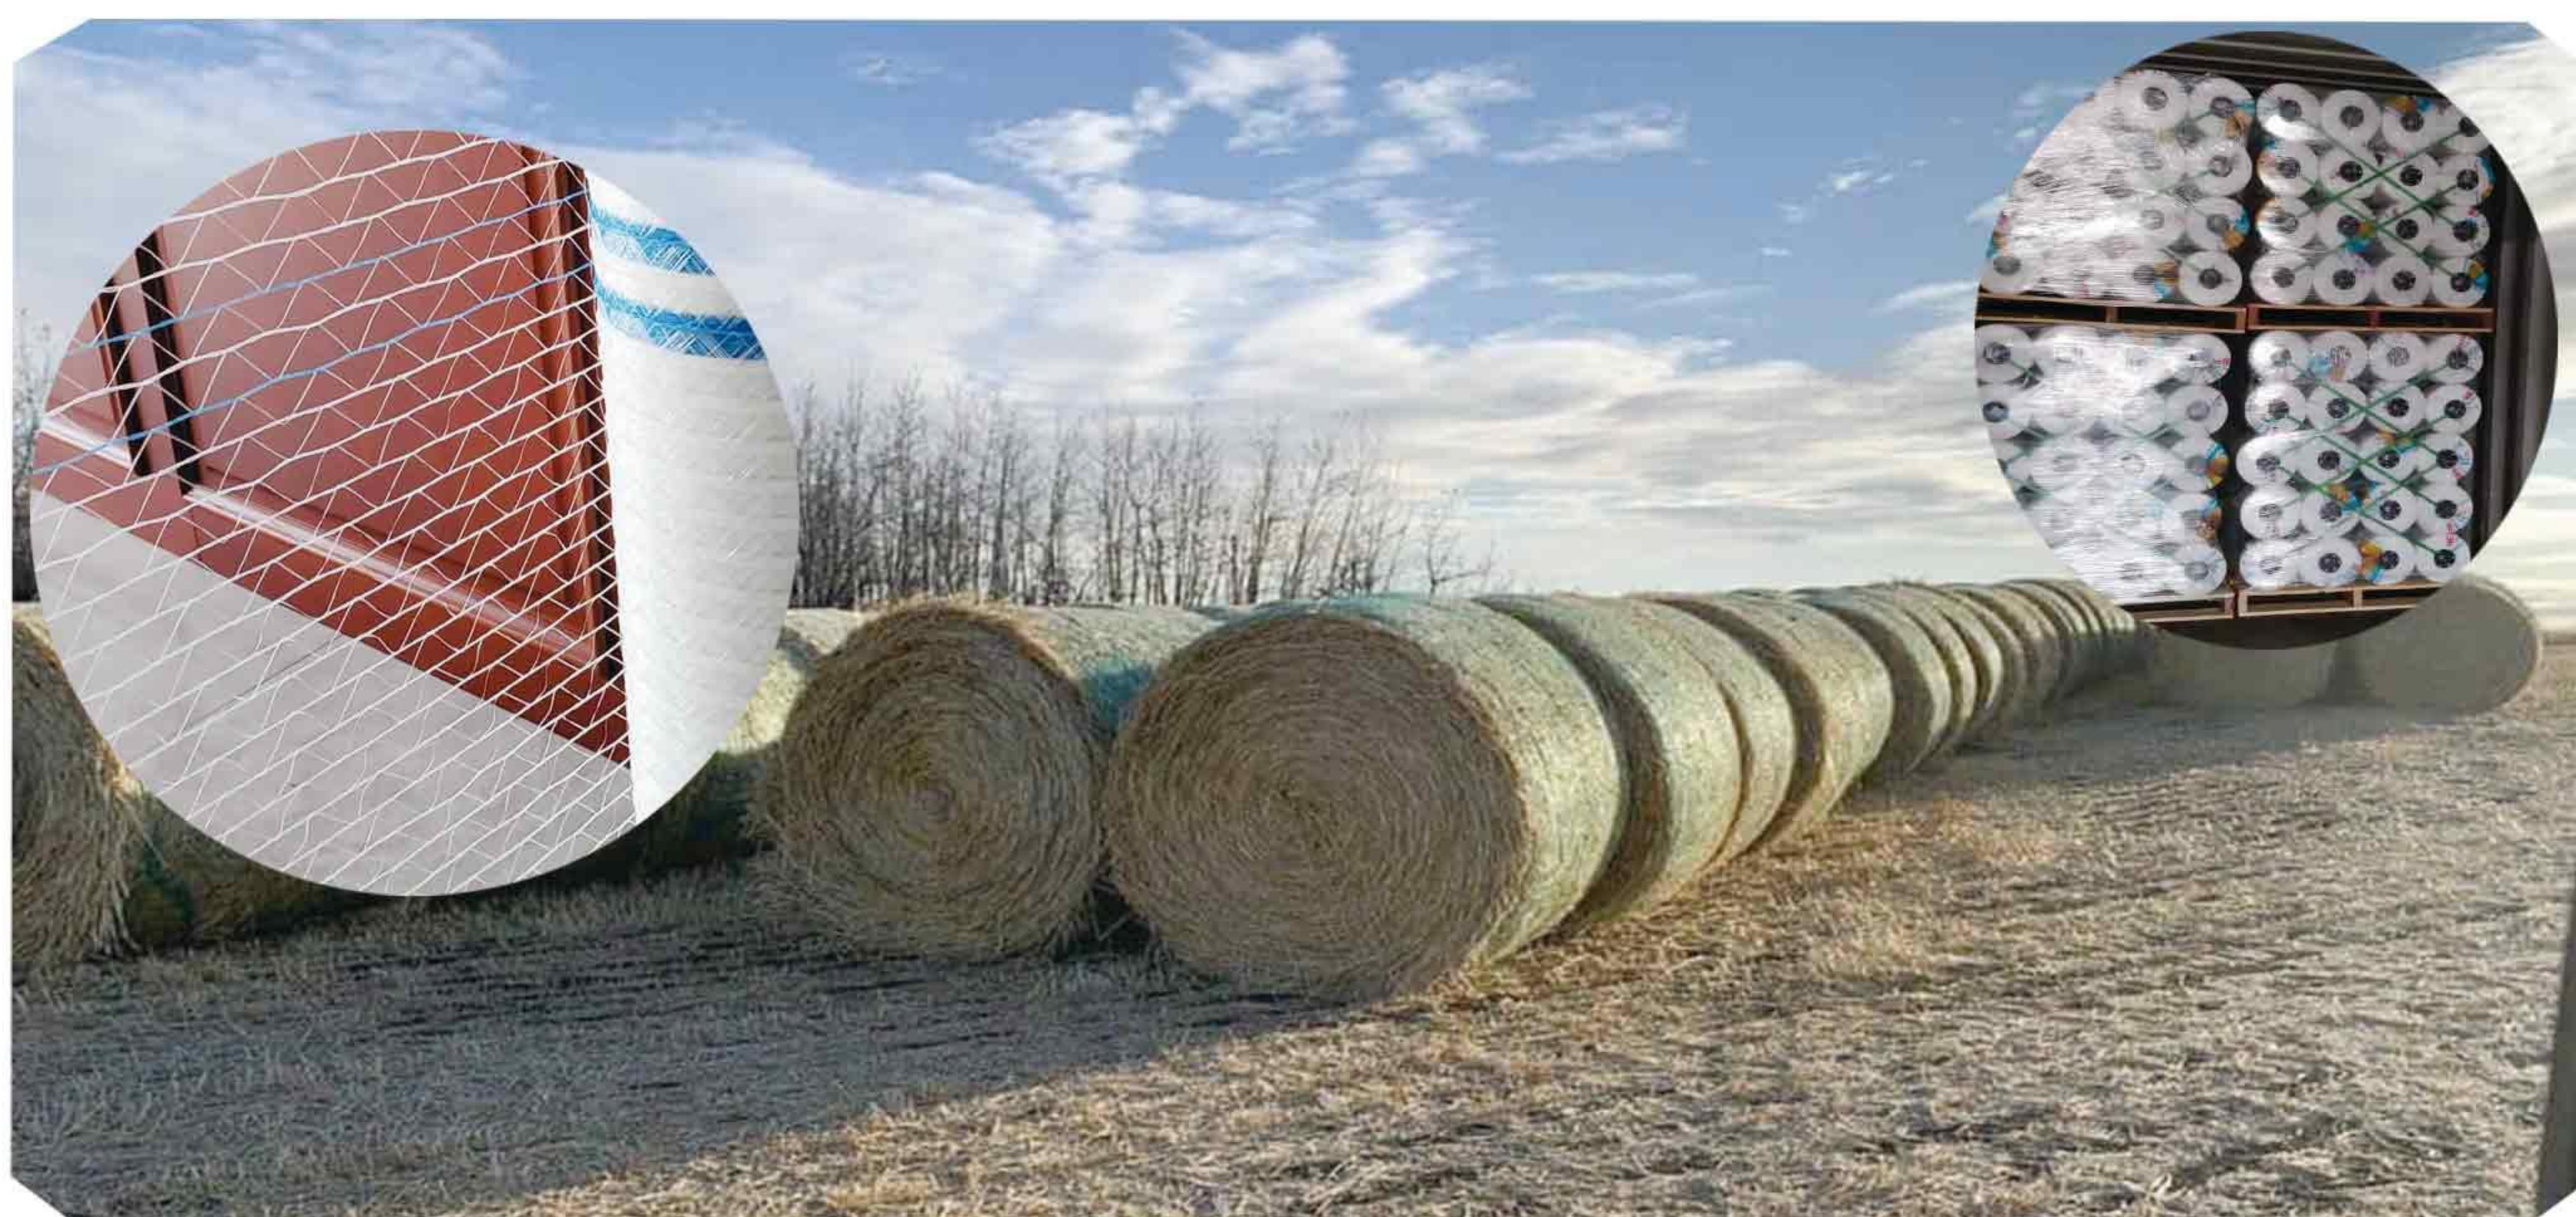

BALE NET WRAP

CHARACTERISTICS:

- ✓ Premium high density polyethylene resin with UV protection and special knitting technology. Automatic online knitting detection ensures constant high quality net wrap. Works under all weather conditions.
- ✓ High loading strength offers extra bale density of hay, silage, straw, corn-stalk, maize, and crop. Good harvest helper, fits for all conventional balers.
- ✓ Enough longitudinal lines ensure heavy duty net wrap, Easy to cut and remove, recyclable.
- ✓ Custom color, width, length according to which baler you are using and what content you are baling.
- ✓ Light grams per meter innovational net wrap endues more cost-saving on baling, environment-friendly.
- ✓ Warning color stripe on 75m (250ft) length to remind you to change new roll.
- ✓ Up to 12-18 months storage outdoor.

BALE NET WRAP

CHARACTERISTICS:

Roll Net Width	Roll Net Length	Longitudinal Lines	Rolls per pallet
1.05m (42")	2000m (6562')	43	25
1.23m (48")	2000m (6562')	50	25
	3000m (9842')		16 & 20
	3600m (11811')		14
1.25m (49")	2000m (6562')	51	25
	3000m (9842')		16 & 20
	3600m (11811')		14
1.30m (51")	3000m (9842')	53	16 & 20
	3600m (11811')		14
	4500m (14764')		14
1.62m (64")	2134m (7000')	66	20 & 25
	2439m (8000')		20
	2744m (9000')		16 & 20
1.70m (67")	2134m (7000')	69	20 & 25
	2439m (8000')		20
	2744m (9000')		16 & 20

BALER TWINE

CHARACTERISTICS:

- ✓ Selective polypropylene resin to obtain the maximum knot strength.
- ✓ Advantaged production equipment ensures stable quality, no rope joint.
- ✓ Heavy duty for silage, hay square bales, fit for all conventional balers.
- ✓ Custom color, length and grams per meter.

BALER TWINE

CHARACTERISTICS:

- ✓ 12-18 months storage outdoor.
- ✓ Baler twine has good flexibility.
- ✓ It has good heat resistance.

Grade	Bene-650	Bene-550	Bene-440	Bene-280	Bene-210
Length per spool	1100m/3600'	1220m/4000'	1402m/4600'	2042m/6700'	2926m/9600'
UV protection	12-18 months

PE FILM

CHARACTERISTICS:

- ✓ High quality C8 metallocene PE resin with color masterbatches and UV protection.
- ✓ 5-layer and 7-layer blown silage wrap, good cling performance and excellent puncture/tear resistance.
- ✓ Traditional dimension film fits for all conventional wrappers and combinations.
- ✓ Width: 250mm, 375mm, 500mm, 750mm and 1000mm.
- ✓ Thickness: 20um, 22um, 25um, 30um and 38um.
- ✓ Length: 1000m, 1250m, 1500m, 1705, 1800m, 1900m.
- ✓ Core: plastic and paper.
- ✓ Color: white, black, light green, dark green and custom.
- ✓ UV protection 12 months storage outdoor.

ANTI BIRD NET

CHARACTERISTICS:

- ✓ Protect the crops, plants, fruits and garden damaged by birds and other animals.
- ✓ Standard 20mm X 20mm mesh can get better protection and doesn't hurt the birds and other animals.
- ✓ 100% new HDPE resin with UV protection, Custom color, width and length anti-bird net.
- ✓ UV protection 1-3 years.

Size (width X length)	Colors	Mesh dimension	Weight per square meter
2 X 3m	White, Black, Dark Green	20 X 20cm	25g/m ²
4 X 5m	White, Black, Dark Green	20 X 20cm	25g/m ²
6 X 10m	White, Black, Dark Green	20 X 20cm	25g/m ²
10 X 10m	White, Black, Dark Green	20 X 20cm	25g/m ²
15 X 10m	White, Black, Dark Green	20 X 20cm	25g/m ²
15 X 20m	White, Black, Dark Green	20 X 20cm	25g/m ²

GROUND COVER

CHARACTERISTICS:

- ✓ Good air permeability, strong water permeability.
- ✓ Tensile resistance, strong toughness.
- ✓ It has a certain effect on reducing diseases and pests
- ✓ Our anti grass nets can against harmful UV ray.
- ✓ Our color and length of nets can be customized.
- ✓ Save money on manual weeding and fertilizer costs.

ANTI HAIL NET

CHARACTERISTICS:

- ✓ 100% High density polyethylene netting with UV protection.
- ✓ Anti-hail net protects vineyards, orchards, tunnels and greenhouses.
- ✓ Custom color, width, length, Cost-saving on weeding and fertilizer.
- ✓ Good air permeability, stronger water permeability.
- ✓ Tensile resistance, strong toughness, reduce diseases and pests.

SHADING NET

CHARACTERISTICS:

- ✓ Shading net against harmful UV ray.
- ✓ Shading net provides uniform shadow.
- ✓ Color and length can be customized.
- ✓ Shading rating:30%-95%.
- ✓ The mesh surface is flat and smooth, the flat wire is parallel to the gap, neat and uniform, and the warp and weft are clear and bright.

PALLET NET

CHARACTERISTICS:

- ✓ 100% new HDPE resin, pre-stretched and stretchable pallet net wrap.
- ✓ Breathable pallet packaging materials for the pallet transportation of vegetables, fruits, eggs, flowers, nurseries, tree, turf, seedings, dairy etc. products.
- ✓ Excellent holding strength and less plastic usage, environment friendly.
- ✓ We have the production of regular pallet stretch film as well.
- ✓ Custom color, width, length of pallet net wrap, hand and machine wrap.
- ✓ Standard size: Hand wrap 500mm X 500-1000m, Machine wrap 500mm X 3000-6000m.

For an enterprise, quality is our life and reputation is our future

RASCHEL BAGS

CHARACTERISTICS:

- ✓ 100% HDPE resin with various color and different mesh size.
- ✓ Packaging material for onion, potato, fruit and other crops etc.
- ✓ Heavy duty bags, loading weight 5kg, 10kg, 20kg, 25kg and 50kg.
- ✓ Custom color, size and design.
